We hope this information will be of value to you in assisting the school and your child/children to work together to make this year an enjoyable and productive one. We would like parents to take an active part in their child's school achievements and activities.

The teachers and staff are all here to assist you and your child/children.

BURKE SCHOOL DISTRICT 26-2 PHILOSOPHY

In today's society, education is a continuous process of learning, not only for the present, but for the future. Therefore, the Burke School will provide an educational environment that promotes and enhances learning as a lifelong endeavor. In addition, the Burke School believes that education is not just the development and refinement of mental capacity, but a process that assists the students in meeting their physical, social, aesthetic and emotional requirements.

The Burke School will strive to provide stimulation and assistance so that each child develops in accordance to his/her individual ability, interest, and potential. The responsibility of the school, therefore, is to help guide the individual in the many and varied educational experiences so that he/she can develop into a wholesome, happy, and productive human being.

The Burke School recognizes the importance of the home as an influence upon the child and believes that a sympathetic, cooperative attitude between the teacher and parent is necessary in the development of a student's integrated personality.

The total staff of the school system constitutes an inestimable and lasting force in the development of the student. The teacher is the most significant influence in the school and must, therefore, possess and demonstrate dedication, enthusiasm, and provide a safe environment in the school that fosters maximum student growth and reflects individual differences.

It is further realized that mutual rapport among the home, student, staff, administration, school board, and total community is necessary to implement this policy.

NONDISCRIMINATION

The Board is committed to a policy of nondiscrimination in relation to race, sex, religion, national background, handicap, and other human differences. Respect for the dignity and worth of each individual will be paramount to the establishment of all policies by the Board and in the administration of these policies. The Constitutions of our nation and state, pertinent legislation enacted at those two levels of government, as well as court interpretations regarding citizen's rights, undergird this statement.

In keeping with these statements, the following will be objectives of this school district:

1. To promote the rights and responsibility of all individuals as set forth in the state and federal constitutions, pertinent legislation, and applicable judicial interpretations.
2. To encourage positive experiences in human values for children and adults who have differing personal and family characteristics or who come from various social, economic, racial, and ethnic groups.
3. To carefully consider, in all decisions made which affect the school, the potential benefits or adverse consequences that those decisions might have on the human relations aspects of all segments of society.
4. To initiate a process of reviewing all policies and practices of this school district in order to achieve to the greatest extent possible the objectives of society.
5. To work toward a more integrated society and to enlist the support of individuals as well as that of groups and agencies, both private and governmental, in such an effort.

The Board's policy on nondiscrimination will extend to students, staff, the general public and individuals who it does business with.

EMERGENCY SCHOOL CLOSING

School may be closed due to severe weather, power failure, heating problems, or other reasons. If school is ever dismissed early, your child/children will need to know what to do if you are not at home. In the event of an emergency, your child/children need to have a place to stay in town. This information should be on your child's student information form.

Listen to KWYR--Winner, WNAX--Yankton, or KELOLAND television for announcements concerning school closing because of inclement weather.

BURKE SCHOOL DISTRICT TELEPHONE BROADCAST SERVICE

In our efforts to improve communications between parents and school, the Burke School District has implemented a telephone broadcast system that will enable school personnel to notify all household and parents by phone within minutes of an emergency or unplanned event that causes early dismissal, school cancellation or late start. The service may also be used from time-to-time to communicate general announcements or reminders. The Burke School District will continue to report school closings due to snow or weather on radio and TV stations and will use this system as an overlay to the public announcements.

When used, the service will simultaneously call all listed phone numbers in our parent contact list and will deliver a recorded message from school administrators. The service will deliver the message to both live answer and answering machines.

If you should have any questions regarding the parent contact program, please contact the administrative office at 605-775-2644.

ATTENDANCE

Regular attendance is one of the keys to a successful and rewarding school career. Frequent absences of students from regular classroom learning experiences disrupt the continuity of the instructional process. The benefit of regular classroom instruction is lost and cannot be entirely regained by extra after-school instruction and assigned make-up work.

If a student is absent, the parents are requested to **notify the school by phone as soon as possible.**

NOTE: No student will be allowed to participate in an extracurricular activity if he/she is absent from school on the date that the activity is scheduled. This includes rehearsals and practice. The only exception to this rule is prior permission from the office.

BULLYING LETTER TO PARENTS/GUARDIANS

Dear Parents/Guardians,

Our school cares about the safety and well being of our students. We want to make sure our school is a good place for students to learn- Parents and guardians play a key role in this program. Your child will be asked to tell an adult at school and at home if he or she is bullied or sees bullying happening at school. It will be very important that you take any bullying seriously and tell our school staff.

Bullying should not be seen as “kids being kids” or something that students just need to deal with. Having a safe school experience is something that all students should be able to enjoy.

BULLYING TIPS FOR PARENTS: WHAT TO DO IF YOUR CHILD IS BEING BULLIED

If your child is being bullied at school, this can be a very painful experience for your child and your family. We are doing all we can at school to put a stop to bullying. Here are some additional things you can do to support your child if he/she is being bullied:

- Never tell your child to ignore the bullying.
- Don’t blame your child for the bullying. Don’t assume your child did something to provoke the bullying.
- Allow your child to talk about his or her bullying experiences. Write down what is shared.
- Empathize with your child. Tell him or her that bullying is wrong, that it is not his or her fault, and that you are glad he or she had the courage to tell you about it.
- If you disagree with how your child handled the bullying situation, don’t criticize him or her. It is often very difficult for children to know how best to respond.
- Do not encourage physical retaliation.
- Check your emotions. A parent’s protective instincts stir strong emotions. Although it is difficult, step back and consider the next steps carefully.
- Contact a teacher, school counselor, or principal at your school immediately and share your concerns about the bullying that your child has experienced.
- Work closely with school personnel to help solve the problem.
- Encourage your child to develop interests and hobbies that will help build resiliency in difficult situations like bullying.
- Encourage your child to make contact with friendly students in his or her class, or help your child meet new friends outside of school.
- Teach your child safety strategies, such as how to seek help from an adult.
- Make sure your child has a safe and loving home environment.
- If you or your child needs additional help, seek help from a school counselor and/or mental health professional.

We expect students to be able to abide by basic rules whether they are at school, at home, or in the general rules of our society and operate within the limits established. School clothing should be functional and reflect the attitude of the student toward his/her job, which is learning. The school personnel has confidence in the judgment of parents in the selection of clothing that is appropriate for school. Remember, clothes that have any form of profanity or disrespect will not be allowed.

Many students wear similar pieces of clothing. It is helpful to have mittens, snow boots, caps, jackets, etc., marked with their names.

As the weather changes, make sure your child has the proper clothing for recess.

BICYCLES

Students may ride bicycles to school. Bicycles are to be parked in the designated area. Riding bicycles on the playground or around school premises at recess or noon is prohibited. The school will not be held responsible for any damage to or loss of the bicycle.

RETENTION POLICY

Students will normally progress annually from grade to grade. However, exceptions to this general policy may be made when it becomes evident that a student should proceed more slowly.

Retention will not be used until other possibilities have been exhausted including special help and remedial work.

In all cases of retention, parents must be informed of such possibility well in advance (usually by third reporting period) and a conference with them sought. In all instances, the advice and help of the principal will be used by teachers.

Although teachers may recommend retention, the building administrator will assign all retention. Teachers recommending retention and principals assigning them will give the reasons why they feel the student should repeat.

The building administrator will take particular care in assigning more than one retention during a child's elementary school life. The superintendent must approve a second retention assigned any student.

WITHDRAWAL FROM SCHOOL

If you are moving to a new school, the teacher and office should be notified as soon as possible so that transfers can be prepared and the child's supplies collected for the transfer.

SEASON ACTIVITY PASSES

Activity tickets are available in the Business Office in the High School for all home athletic contests for adults and students. Season passes are not valid for tournaments.

FIELD TRIPS

Individual classrooms plan their own personalized trips. Your child's teacher will notify you in advance of the trip regarding date, time and destination.

Individual pictures of students are taken in the fall for the yearbook. These photos may be purchased, but there is no obligation.

MONEY AND VALUABLES

Students are discouraged from bringing large sums of money or valuables to school. The practice of leaving money or valuables on or in a desk is dangerous. The teacher or school will not be held responsible for any loss or damage.

SCHOOL VISITATION

Parents are invited to visit school to observe the work being done. Teachers are expected to supervise their classes when they are assembled so they cannot visit with parents at that time; however, parents are urged to confer with the child's teacher or administrator later.

SCHOOL VISITATION BY KINDERGARTEN OR PRE KINDERGARTEN CHILDREN UNLESS ACCOMPANIED BY AN ADULT IS NOT PERMITTED.

Visitation of school age children is permitted with permission of the office. It is advisable to give advance notice. Please be courteous, and schedule a visit with your child's classroom teacher.

Invitations (i.e. birthday, Valentine, etc.) may be handed out in school, as long as **EACH** class member receives one. If, as a parent, you do not wish to invite everyone in your child's class, then you are asked to mail the invitations to each student's home address. Thank you for your cooperation in this delicate matter.

BUS BEHAVIOR

Students riding on school buses are expected to obey the rules as set forth in the South Dakota School Bus Driver's Manual. The driver is in full charge of the pupils and bus. The driver's relationship with the students should be on the same plan as that of a teacher in the classroom. The safety of the bus and its passengers demands complete cooperation from the pupils, and shall be the duty of the driver to report to the superintendent the names of any students who persist in violating the rules and regulations. The superintendent may find it necessary to temporarily withhold the privilege of riding the bus from those students who fail to cooperate accordingly.

Prior to the season of inclement weather, parents should instruct their child/children where to go if school is dismissed early. Parents should listen to the radio or television for information about school cancellation or early dismissal.

Non-friable asbestos is present in the floor tile of the Elementary School and the floor tile of the gym addition. Non-friable asbestos presents no danger to building occupants.

An asbestos management plan has been developed by the School District and has been approved by the State of South Dakota. The plan is on file and available in the School Districts Business Office.

REPORTING CHILD ABUSE

To comply with the law (SDCL 26-8-6, 26-10-10, 26-10-11, and 26-10-12), it is the policy of the Burke School District 26-2 that any teacher or other school employee who suspects that a child under 18 years of age has been neglected or physically abused (including sexual or emotional abuse) by any person, including parent or other person, other than by accidental means, shall report orally or in writing to the principal or superintendent who shall then immediately report to the States Attorney, Department of Social Services, the County Sheriff, or the City Police.

Anyone who participated in making a report in accordance with the law and in good faith, is immune from any civil or criminal liability that may otherwise arise from the reporting or from any resulting judicial proceeding even if the suspicion is proved to be unfounded (SDCL 26-10-4).

ACCEPTABLE USE POLICY FOR INTERNET

The Internet is a vast global network, linking computers at universities, high schools, science labs, and other sites. Through the Internet, one can communicate with people all over the world through a number of discussion forums, as well as through electronic mail. In addition, many files are available for downloading on the Internet which can be of educational value. Because of its enormous size, the Internet's potential is boundless. It is possible to speak with everyone from prominent scientists to world leaders to a friend at college. However, with such great potential for education also comes some potential for abuse. It is the purpose of this list of guidelines, as well as the contract for Internet use, to make sure that all who use the Internet, both students and faculty, use this valuable resource in an appropriate manner.

The Burke School District is pleased to offer Internet Access for all students. We believe the Internet offers valuable resources to both students and teachers. Electronic information research skills are now fundamental to the preparation of citizens and future employees during an Age of Information. However, with access to information from all over the world comes the availability of material that may not be appropriate for use in the school setting. The Burke School District has taken precautions to restrict access to controversial materials through the use of specially designed software. However, it is impossible to control all materials. A persistent user may discover controversial information. We believe that the benefits to students from access to the Internet exceed any controversial information. We believe that the benefits to students from access to the Internet exceed any disadvantages. We will support and respect each family's right to decide whether or not to apply for access,

The most important prerequisite for someone to use the Internet is that he/she takes full responsibility for his/her own actions.

Students are responsible for good behavior on school computer networks, just as they are in a classroom or a school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply.

All users, including students, faculty, and community members, should keep in mind that when they use the Internet, they are entering a global community, and any actions taken by them will reflect upon the Burke School District as a whole. All users must behave in an ethical and legal manner. As such, the following list of activities **will not be permitted** while using the school network:

- *Sending, viewing, or displaying offensive messages or pictures
- *Using obscene language
- *Using or engaging in chat line conversations without the direct permission and supervision of school personnel
- *Harassing, insulting, or attacking others
- *Damaging computers, computer systems, or computer networks
- *Trespassing in another's folders, work, or files - respect others' privacy
- *Intentionally wasting limited resources
- *Use the network for commercial purposes
- *Unauthorized copying of software
- *No use of the network shall serve to disrupt the use of the network by others
- *Hardware or software shall not be destroyed, modified, or abused in any way
- *Harassment, hate mail, discriminatory remarks, and other antisocial behavior
- *Use of network to access or process pornographic materials

Violators will result in a loss of access to the Internet, as well as other disciplinary or legal action.

The administration will deem what is inappropriate use and this decision is final. The administration resumes the right to limit use to any person who violates any part of this policy.

MEDICATION IN SCHOOL

The school highly discourages the administration of prescription or nonprescription medication to students. The Board recognizes that students may need to take medications at one time or another. We encourage parents to set up student medications during non-school hours. If it is impossible to avoid school hours, we encourage parents or guardians or close relatives to come to the school and administer the medication.

CELLULAR PHONES & WIRELESS COMMUNICATION DEVICES

The use of cellular phones, pagers, iPods, and other wireless communication devices by students is prohibited within the school building during school hours. Any such device will be confiscated and will be released to the parent of the student.

1st Offense – Warning. Student and parent will come in and get phone together and will be told of future punishments.

2nd Offense – Student will lose 2 recesses and will be supervised by staff during the recess time. Student and parent will come in to get phone together and will be told of future punishments.

EMERGENCY PROCEDURES FOR THE BURKE SCHOOL DISTRICT

The School District has developed procedures designed to minimize danger to students and staff should an emergency occur at school. Our main objective is to attend to the health and welfare of your child/children in the event of a crisis and to see that he/she gets home safely by walking, bus or by transportation provided by parents/guardians.

It is impossible to foresee all the potential emergencies, but we have worked with law enforcement officers, fire fighters, and other emergency responders to plan the most effective ways to use our resources to respond immediately to those emergencies that cannot be avoided. Any disaster will disrupt the “normal” way of doing things. It will cause inconvenience to all of us. We share these responsibilities as school administrators and you as parents.

In most emergencies your child/children will remain and be cared for at school. In the rare event of an emergency affecting students that prohibits re-entry to the building (such as broken gas or water mains, a fire or sudden loss of utilities in bad weather), students and staff will be removed immediately to our alternate site.

We ask you to follow this procedure if you hear RUMORS of any school emergency.

1. Contact the school at 775-2645
2. Contact the Sheriff's Office at 775-2626
 - a. If, for any reason students must be evacuated during regular school hours, your child will be taken to and cared for at the following sites:
 - HS/MS – Civic Center
 - Elementary – Catholic Church
 - Alternate Assembly Location:** Gregory County Courthouse
 - b. Stay tuned to the radio and television stations for updated, accurate reports and information provided by the school administration about when and where to pick up your child.
