#### Philosophy

In today's society, education is a continuous process of learning, not only for the present, but for the future. Therefore, the Burke School will provide an educational environment that promotes and enhances learning as a lifelong endeavor. In addition, the Burke School believes that education is not just the development and refinement of mental capacity, but a process that assists the students in meeting their physical, social, aesthetic and emotional requirements.

The Burke School will strive to provide stimulation and assistance so that each child develops in accordance to his/her individual ability, interest, and potential. The responsibility of the school, therefore, is to help guide the individual in the many and varied educational experiences so that he/she can develop into a wholesome, happy, and productive human being. The Burke School recognizes the importance of the home as an influence upon the child and believes that a sympathetic, cooperative attitude between the teacher and parent is necessary in the development of a student's integrated personality.

The total staff of the school system constitutes an inestimable and lasting force in the development of the student. The teacher is the most significant influence in the school and must, therefore, possess and demonstrate dedication, enthusiasm, and provide a safe environment in the school that fosters maximum student growth and reflects individual differences. It is further realized that mutual rapport among the home, student, staff, administration, school board, and total community is necessary to implement this policy.

## **District Profile**

### **Program Development**

The Burke School District Leadership Team consists of administrators and teachers from all three schools in the Burke School District. Members of the Leadership Team meet annually to review data from the previous year's testing and discuss how to roll out that data to the remaining staff of the Burke School District.

The Leadership Team works to identify strengths and weaknesses of the district. They report these out to the remaining staff along with the rest of the data. The Leadership Team then takes part in a whole staff meeting which is designed to develop goals for our staff and students during the current school year.

## Needs Assessment, PD, HQ Staff, and Parental Involvement

#### **Data Retreat Process**

The Burke School District Leadership Team will meet in September of 2015 to discuss student achievement, programs and structures, professional practices and family and community data of the district. The Leadership Team will review the data for the district and determine how to report that data out to the remaining staff. The staff will then develop goals for the 2015-2016 school year based on the Smarter Balanced Assessment as well as our benchmark testing.

### **Professional Development**

The Burke School District has designated in-service times throughout the 2015-2016 school year to be used to work on Student Learning Objectives, implementation of Planbook, and implementation of Teachscape. During these times, teachers will work individually as well as in small and large group settings to become more effective in these areas. The administration will not only lead the professional development, but also be active participants.

## **Burke School District-Academic Goals**

We the PK-2 instructional staff of Burke School District will increase the overall achievement in phonemic awareness, phonics, vocabulary, comprehension and reading fluency. 75% of our students will be at or above benchmark in their composite Dibels score by May.

### **Highly Qualified Teachers**

The Burke School District attracts highly qualified professionals through a variety of recruiting methods and job notifications. We advertise job openings within the school, local and regional newspapers, and through the Associated School Board website, as well as contacting higher education institutions. If necessary, we will attend the teacher job fair to recruit highly qualified teachers. Teachers and Title I paraprofessionals must meet the state requirements for highly qualified staff. All applicants must submit a background check before working with children. Currently, 100% of our teachers and paraprofessionals are highly qualified. All special education paraprofessionals meet the highly qualified paraprofessional requirements of NCLB. The school district would provide professional development opportunities for all teachers and paraprofessionals who are not highly qualified.

#### Parental Involvement

The Burke School District posts test scores in local businesses as well as in the main office of the school. Parents are also sent individual test scores as they pertain to their child(ren) for the previous school year. Grades are posted weekly for our students and parents have access to them through the parent portal in Infinite Campus. We also print report cards quarterly to send home to the parents or be picked up at the school. Our parent/teacher conferences are held twice during the school year. One is held at the conclusion of the 1<sup>st</sup> quarter of school and the other is held at the conclusion of the 3<sup>rd</sup> quarter of school. Throughout the school year, there are also activities which parents get invited in for such as

classroom breakfasts, plays, awards nights, concerts, etc. Our doors are always open to parents and they are encouraged to attend all events that the school puts on throughout the year.
